It is open to doubt whether were not so quick as the others in effecting their reforming atmos of administration amongst laid up and crews paid off, and the Affairalty.

MEMORIAL AGAINST NEPOTISM.

taols for | bardief of the sufferers.

The following memorial appears in the N. C.

An Wei-Isau, Consor of the Fukien Circuit. presents a momorial against the practice of crafty manipulation for promotions by high officers of and augmentation in the legitimate masumption or on behalf of the sons and nophews of brother of water, the means of making a substantial in Viceroys and Governors, etc. Such practices. crease to the total water supply sheald now be remark at seaid Censor, do not satisfy the teneta considered. It is very desirable that the supply of justice and importality, and beare punish-" We regul that Chive, having in disregard derivable from the present gathering ground mont should be meted out to such as have been should be developed to the utmost, withir than guilty of nepitism and favouritism: The State water should be collected from severalgathering- in its auxion to reward the services of faithful grounds. To seems the purity of the water, it and emineut servants, instituted the onstom of is necessary that the gathering-ground shall be granting official rable after their doubt to their

uninhabited and uncultivated. Twogethering sons Although the power to confer such is grounds have already been taken up for the unitarally in the hands of the Throne. Bill purposes of the public water supply, and the opportunity is given for crafty practice in waters of others have been granted to private obtaining these privileges dispreportionate to individuals. It is, therefore desirable that no the talents of the objects thereof, and it is a domore land be withdrawn from occupation than is sire to guardagainst this that has prompted the (70) acres. The same stream, at a pant lower the sous and hephews of Li Haug-chang. Vicedown, where its bed is approximately 100 feet; ray of Chill, the sons of the late V c-roy of the above the sea, has a total gathering-ground of Yun-Ku i provinces, I's'en Yu ying, and the 1.490 acres, of which 700 contribute forthe exist- descendents of the late Marquis: Tso Tsung. ing Tytam reservoir. The flow from 790 acres, lang. With reference to the case of Li Chinplus the overflow and leakage from Tytam re- its'a, nephovof Li Hang-chaug, this young man servoir, could be collected in a reservoir con is the son of Li Han-chang. Just arrived at structed at a level of 100 feet above the san. If the age of twenty-five, he parchased an expecta reservoir of suitable size were constructed at land that affirmank for the province of Kinngsu, this point an additional supply at least equal to, By skilled manipulation and family interest and probably greater than, that which Tytam Lin Musyi, Vicercy of the Liang-king now affords could be obtained. The available provinces, was induced to recommend that the quantity would depend mainly on the capacity of said Li Chints's, being well versed in foreign the reservoir, a point which can only be settled relations, inpermitted to go up to Peking for an Imperial sullence to show off his attainments "The water of this reservoir would have to be The pelmision was granted, and through the proped by steam power into the Tylam tunnel. Imperial lenevolence and clemency, which wished This is not a very serious matter, however. The to overlook his demerits, he was to be sent back Ordinance map of Hongkong shews that no ap- to Kuangs, with the privilege of baving his name preciable additional supply can be collected in the put down in the Grand Council records as first lower Tytam gathering ground of 790 acres, at on the list for a substantive Taotaiship. Just at he Tytum tunnel. Nevertheless the evidence this son and nephew of Viceroys, and on the before me tends to show that the Tylam valley 4th instant be was compelled to give up his is the best source from which extensions to the titles and rank by Imperial Edict, while his supteration to the eistributary system med be made: Viceroys and practising ne otism. In this gressively as demand arises. I thenfore recom- line also of receiving and listening to the advice this craft; way of gotting rank is not confined "It is probable that a material increase to the I to one Li clone. There is the case also of it water supply may be at once obtained from the inhan-shail mother of Li Hung-chang's nephews Tylam valley, without the construction of a re- | He houghton expe tant anothiship of Ez-chua-
